VORWORT

Nachdem bereits 1936 und 1937 die Nachgrabungen im Bereich des 1907 sowie 1911 und 1912 von H. Winckler und Th. Makridi freigelegten Gebäudekomplexes, der als „Haus am Hang“ in die Forschungsliteratur eingegangen ist, 90 Tontafelfragmente erbrachten, lieferten die abschließenden Untersuchungen 1960–1962 noch einmal eine sehr große Zahl weiterer Fragmente. Die Edition dieses Materials, das H. Otten mit den Bänden KBo XII (1963) und XIII (1967), gelegentlich auch in späteren Bänden, in Angriff genommen hatte, wird mit dem vorliegenden Band fortgesetzt. Die Bezeichnung „L/18“ im Titel schließt sich zur Verdeutlichung der Zusammengehörigkeit des Materials hinsichtlich des Fundortes an die vorausgehenden Bände an; in dem neuen topographischen Plan des gesamten Ruinengeländes von Hattuša (s. AA 1999, Abb. 18) liegt das „Haus am Hang“ und seine unmittelbare Umgebung in den Planquadraten 310-320 / 368-376. Mit einem weiteren Band soll die Edition der Textfunde aus den Nachgrabungen zum Abschluß kommen. Damit eröffnet sich die Perspektive, durch Gattungsbestimmungen aller Fragmente mit der Fundortangabe „Haus am Hang“ sowie durch weitere Zusammenschlüsse mit Tafeln aus den Winckler-Makridi-Grabungen zu einer genaueren Bestimmung der Art und Zusammensetzung der Tafelsammlung(en) des „Hauses am Hang“ – auch im Vergleich zu den Tafelsammlungen des „Großen Tempels“ und der Büyükkale – zu gelangen.

Frau Dr. Giulia Torri hat als wissenschaftliche Mitarbeiterin der Arbeitsstelle „Hethitische Forschungen“ der Akademie der Wissenschaften und der Literatur Mainz den vorliegenden Band erarbeitet. Nach ihrem Ausscheiden aus dem Dienst der Akademie und ihrer Rückkehr nach Rom hat sie die Arbeiten als freie Mitarbeiterin weiterführen können; Herrn Prof. Dr. Alfonso Archi, Rom, der sie dafür von anderen Aufgaben freistellte, habe ich ebenso zu danken wie der Akademie, die die Reise- und Aufenthaltskosten für zwei mehrmonatige Aufenthalte in Mainz trug. Im September 2002 konnte Frau Torri ihre nach den Photographien in Mainz hergestellten Kopien in Ankara an den Originalen kollationieren und weitere Autographien von Fragmenten, für die keine oder keine hinreichend brauchbaren Photographien vorlagen, herstellen. Einige Autographien von Texten aus dem „Haus am Hang“ von der Hand Ch. Rüsters bzw. H. Ottens lagen bereits vor und wurden in den Band aufgenommen.¹ Für die freundliche Unterstützung ihrer Arbeit im Anadolu Medeniyetleri Müzesi danken wir der Generaldirektion der Antikenverwaltung und der Direktion des Museums; unser Dank für stets lebenswürdige Unterstützung geht auch an die Kuratorin Frau Rukiye Akdoğan. Der Deutschen Forschungsgemeinschaft danke ich für die Bereitstellung von Reisemitteln.
